

Bogandilla Wind Farm

Community Benefits

**Approx. 290,000 QLD homes
supplied with electricity**

Provide low-cost clean energy

- The Bogandilla Wind Farm and transmission project will bring direct and indirect employment opportunities.

- All RES projects have a focus on preserving cultural heritage and minimising our impact on the environment.

- Bogandilla Wind Farm will offer a Neighbour Shared Benefit Schemes (SBS) to ensure that communities hosting renewable energy projects share in the benefits of the transition*

Community benefit sharing

- RES are committed to delivering enduring economic, environmental, and social benefits for the local community through the life of this project.
- Every community is different, so every project presents unique opportunities for benefit sharing.
- Local and Regional Community Benefits to be co-designed with Council's and the community
